SculptRx Body & Aesthetics

PRIVACY POLICY

THIS IS THE SculptRx Body & Aesthetics OFFICIAL PRIVACY POLICY, WHICH IS PART OF OUR TERMS AND CONDITIONS [link] AND IS A PART OF YOUR LEGAL AGREEMENT WITH US.

Name of company SculptRx Body & Aesthetics (“,” “us” or “we”) values the privacy of our users, and others (collectively or individually “Users”) who visit and use [WEBSITE] and its associated websites and services (collectively, the “Site”). This statement governs information you provide to us or that we learn from your use of the Site (including your use of SculptRx Body & Aesthetics application (the “Service Application”)) and tells you how we may collect and use information, the circumstances in which we disclose or share information, and how you can access, update or delete certain information we have collected about you. This online Privacy Policy applies only to information collected through the Site and Service Application, and not to information collected offline.

The Information we Collect

User Provided Information: You may provide to us what is generally called “personally identifiable” information, such as your name and e-mail address, when you register, email us or use our services, and your home address and related information in connection with your order for In-home Services (as defined below). In addition, we may give you the option to provide us with certain demographic information about yourself and to upload photographs or other personally identifiable information. Unless you voluntarily provide or send us personally identifiable information, we will always ask you to submit or provide it to us before collecting your personally identifiable information. If you provide or submit your personally identifiable information to us we will provide you with the ability to review update and/or delete your personally identifiable information, subject to our obligations to comply with legal, regulatory, internal audit and record-keeping requirements. To update and/or delete your personally identifiable information you have on file with us, please send an email at info@sculptrxaesthetics.com.

“Automatically Collected” Information: When you visit the Site or open one of our HTML emails, we may record certain information from your web browser by using different types of technology, including “clear gifs” or “web beacons.” This “automatically collected” information may include your Internet Protocol address (“IP Address”), web browser type, the web pages or sites that you visit just before or just after the Site, the pages you view on our site, and the dates and times that you visit.

“Cookies” Information: We and our operational service providers and others who host the Site often use technology that can recognize, collect and/or transmit information that is associated with you, but which do not personally identify you. Although the term “cookie” specifically refers to a small text file that is stored on a User’s computer for record-keeping purposes, we use the term “cookie” to refer generically to any technology that can recognize, collect and/or transmit information about your visits to

the Site. This type of information includes such data as the Internet or web domain that referred you, the type of operating system and browser you are using, the date and time of your visit, data relating to activities on the Site (e.g., so-called 'click stream' data) and other technological attributes about your visit to the Site. This information is used to analyze trends, administer the Site, track user movements on the Site, and gather aggregate demographic information about visitors so we can continually improve the Site. Cookies also allow the Site to recognize your computer or access device each time you visit and cookies can keep count of how often you return. Cookies can also track how you use the Site and your preferences for features and functions, and cookies can store information such as your user name and password so that you don't have to re-enter them each time you return to visit. Cookies don't personally identify you or any particular user or individual.

When you visit the Site, we may send one or more cookies – a small text file containing a string of alphanumeric characters – to your computer. We use both session cookies and persistent cookies. A persistent cookie remains after you close your browser and may be used by your browser on subsequent visits to the Site. By using these cookies, we can "remember" what you have done on the Site before and personalize our site for you. These persistent types of cookies can be removed. You can disable or turn the cookie feature off by changing the settings on your Internet browser and you can also change the settings to stop your browser from automatically accepting cookies. Each web browser implements different functionality, so please refer to the manuals or technical support resources that are available in conjunction with your web browser to learn the correct way to modify your cookies set-up. If you are using the Site in a jurisdiction where your prior consent is required for us to deploy any particular cookies, you will be asked to accept such cookies before they are deployed. Please note that disabling cookies or declining to accept certain cookies will prevent you from accessing some of the functionality and site offerings available via the Site, and may also require you to re-enter certain information each time you visit or attempt to use the Site.
